

I, \_\_\_\_\_, as parent and/or legal guardian of \_\_\_\_\_, a minor child, hereby exercise my right under the Arizona Parents Bill of Rights, the US Constitution and the Constitution and laws of the state of Arizona, to direct the upbringing and education of my minor child, and hereby place school administrators on notice of the following:

I expect transparency, and to be notified of, and have the opportunity to opt my child out of - or opt into as required by law - classroom curriculum and activities, and school policies that violate our family's sincerely held beliefs as follows. I **expect to receive the opportunity to opt my child into sexual education lessons and surveys, pursuant to Arizona law.**

- **Social Emotional Learning:** I expect to be notified in advance if a SEL lesson is planned for my child's class. My child should not receive any Social Emotional Learning instruction, even if the SEL lessons are taught within the context of another subject, or taught under a different name, such as Diversity, Equity & Inclusion.
- **Curriculum:** I expect to receive advance notice of the following in curriculum, clubs, camps or any other school-sponsored or related event: Divisive concepts including teaching that our country was founded on hate and oppression and is a "systemically" racist country, that classic virtues are "white supremacy," racial stereotyping, excessive focus on identity and grievance, or "liberated" ethnic studies curriculum.
- **Activities:** I expect to receive advance notice of the following in curriculum, clubs, camps or any other school-sponsored or related event: "Affinity" groups or activities in the classroom that form based on immutable or socio-economic characteristics, "privilege" walks, assemblies or programs featuring "diversity" consultants, and clubs or activities which use resources from LGBT-activist groups such as GLSEN and The Trevor Project which promote transgenderism to children.
- **Policies:** I expect to receive advance notice of the following in curriculum, clubs, camps or any other school-sponsored or related event: Compelled speech such as pronouns and land acknowledgements; "gender support" plans or keeping my child's student records secret from me; treating my child differently in facilities, homework, and class participation based on immutable or socio-economic characteristics; and allowing students to access opposite biological-sex restrooms, sports teams, and overnight or boarding room facilities

**ARIZONA OPT-IN LAWS:** As a reminder, I expect the district to follow Arizona laws:

**SURVEYS:** Per A.R.S 15-117: "At least seven days before administering any survey to a pupil, every school district and charter school shall provide a copy of the survey to the pupil's parent along with a written informed consent form and shall obtain written informed consent from the pupil's parent for the pupil to participate in the survey."

**SEXUAL EDUCATION:** Per A.R.S. 15-711: "School districts & charter schools may not provide sex education instruction before grade 5. Before a parent provides written permission for the parent's child to participate in any sex education curricula, the school district or charter school shall make the sex education curricula available for the parent's review online and in person." My family's sincerely held belief is that sex education includes sexual orientation and gender ideology including presenting as fact ideas such as a child being "born in the wrong body" or that "sex is assigned or chosen." I object to my child being given access to material with explicit descriptions of sex and sex acts, implied depictions of sexual acts, other material that is harmful to minors such as excess violence, or sadomasochistic abuse.

In accordance with my parental rights, with or without my receipt of advance notice from the school, I hereby OPT MY CHILD OUT—in a manner that does not stigmatize or penalize my child.

I kindly ask for written acknowledgement of my request and look forward to working collaboratively and respectfully with you and school staff members to ensure that my child is not subjected to belief-based practices which violate our family's sincerely held beliefs, and which are, in my view, unrelated (and potentially antithetical) to your school's responsibility to provide my child with a quality education.

Sincerely, \_\_\_\_\_

Parent(s) / Guardian(s) of \_\_\_\_\_ Date: \_\_\_\_\_
